Summary

Artificial Intelligence and Machine Learning undergraduate with hands-on experience building AI-powered business intelligence tools, full-stack web applications, and data-driven systems. Currently interning at WizzyBox Private Limited and serving as President of the AI Nexus Club. Skilled in Python, C, full-stack web development (React/Node), and database management, with growing expertise in LLM tool-use, data analytics, and DevOps practices.

Technical Skills

- **Languages:** Python, C, JavaScript
- **Core Concepts:** Data Structures, Object-Oriented Programming (OOPS), DBMS, Operating Systems
- **AI/ML:** LLM Tool-Use (Claude API), Streamlit, Pandas, NLP fundamentals
- **Web/Backend:** React.js, Node.js, Express.js, Vite, TypeScript
- **Databases & Tools:** MySQL, MongoDB, Git, GitHub, VS Code
- **Currently Building:** SQL, Power BI(Data Analytics & DevOps tracks)

Experience

AI/ML Intern – WizzyBox Private Limited Present
Incubation Internship, Jyothy Institute of Technology

Projects

Skylark – AI-Powered Founder Business Intelligence Agent
Python, Claude API, Streamlit, Pandas, GraphQL

- Built an AI-powered business intelligence agent as a technical assignment for Skylark Drones, converting natural-language queries into actionable insights from live business data.
- Integrated the monday.com GraphQL API with Claude tool-use and deterministic Pandas analytics for pipeline, revenue, receivables, execution, and sector-level analysis.
- Designed an interactive Streamlit dashboard with visualizations, drill-downs, leadership summaries, and data-quality detection.

Traders Paradise – Full-Stack Indian Stock Trading Platform
React, Vite, TypeScript, Node.js, Express, MongoDB

- Developed and deployed a full-stack platform simulating Indian stock market trading, using AI-assisted rapid prototyping (Lovable) combined with hands-on debugging, configuration, and deployment.
- Deployed the frontend on Vercel and backend on Render, resolving Linux case-sensitivity Git issues and migrating from local dev-proxy URLs to production API endpoints.

AI-Powered Interview Intelligence System (In Progress)
Python, NLP, Speech-to-Text/Text-to-Speech, Computer Vision

- Building a live mock-interview platform combining real-time STT/TTS conversation, NLP-based response evaluation, and video/body-language analysis, with a modular pipeline to score responses and generate structured feedback.

Event Management System
React.js, Node.js, Express.js, MySQL

- Developed a full-stack web application for managing events end-to-end.
- Designed a normalized relational database schema ensuring data integrity.
- Implemented authentication and complete CRUD functionality, validated through systematic SQL query testing.

Leadership

President – AI Nexus Club
Jyothy Institute of Technology

- Led club operations and organized the combined Farewell/Login Day event for the AI & ML department.

Certifications

- AI Fundamentals – IBM SkillsBuild
- Cyber and Data Analytics Job Simulations – Deloitte (Forage)
- Data Analyst Bootcamp – Udemy

Education

Jyothy Institute of Technology, Bangalore 2023 – Present
Bachelor of Engineering in Artificial Intelligence & Machine Learning – CGPA: 7.5

Presidency PU College, Bangalore 2021 – 2023
PUC – PCMB – 91.50%

Arvind International School, Tumkur 2020 – 2021
CBSE – 85.20%
